Unit trusts should be considered a medium- to long-term investment. The value of units may go down as well as up. Past performance is not necessarily an indication of future performance. Unit trusts are traded at ruling prices and can engage in scrip lending and borrowing. Fluctuations or movements in exchange rates may cause the value of underlying investments to go up or down. Instructions must reach the Management Company before 12pm to ensure same day value. Fund valuations take place at approximately 15h00 each business day and forward pricing is used. † Performance as calculated by NUTM as at 31 July 2022 for a lump sum investment using Class A NAV prices with income distributions reinvested. Performance figures are quoted after the deduction of all costs incurred within the fund. † Fund performance measured from 1 April 2011 being the first day of the first month of full performance.

Advice Costs
