### REVIEWED FINANCIAL RESULTS FOR THE YEAR ENDED 30 SEPTEMBER 2018

- ASSETS UNDER MANAGEMENT (AUM) OF N\$20.4 BILLION
- DILUTED HEADLINE EARNINGS PER SHARE OF 9.25 CENTS
- TOTAL DIVIDEND PER SHARE OF 7.5 CENTS

### Results

Namibia Asset Management (NAM) delivered results in line with management expectations for the 12 months to 30 September 2018, notwithstanding a very challenging domestic economic environment and global market volatility.

Key highlights from NAM's condensed results for the period under review include:

- Operating profit was flat at N\$20.5 million (2017: N\$20.5 million), whereas profit before tax decreased by 1.5% from N\$22.0 million to N\$21.7 million.
- Total comprehensive income was 2.5% lower at N\$14.8 million compared to N\$15.1 million in the prior comparative period.
- Headline earnings per share were marginally down by 1.2% to 9.57 cents (2017: 9.69 cents).
- Assets under management (AuM) increased by 2% for the period under review to N\$20.4 billion (2017: N\$20.0 billion).

#### Business update

NAM is singularly focused on active asset management and is one of the largest custodians of saving assets in the Namibia. We offer a complete and diversified range of portfolios to both retail and institutional clients. In addition, we continue to offer a comprehensive range of offshore solutions to the local market.

The long-term performance across our entire fund range remains excellent. Of the institutional and retail assets that have been invested with us for a period of at least 7 years, the majority have outperformed their respective benchmarks since inception.

Last year, we communicated our intention to migrate our investment administration services to JP Morgan by mid-2018. We are happy to report that the migration has been successfully completed. In addition, we have insourced our retail client reporting and correspondence and will migrate our unit trust client administration to Intembeko Investment Administrators in the final quarter of the 2018 calendar year. We look forward to the enhancements that these initiatives will provide in delivering a world-class service to our clients.

The proposed introduction of value-added tax on asset management services and a 10% dividend withholding tax as announced by the Minister of Finance in his 2018 budget speech, coupled with other regulatory interventions such as the increased domestic asset requirements, will continue to put pressure on investment returns into the foreseeable future.

#### Institutional business

NAM continues to be one of the notable managers of institutional assets in the local savings industry, managing N\$18.2 billion in client assets (2017: N\$17.8 billion). The increase in AuM was driven by positive net inflows of N\$543 million relating to new clients.

### Retail Business

With the addition of the money market and offshore funds during the last two years, NAM now provides a full suite of products that are suitable for the local market.

Despite recording net outflows of N\$170 million (2017: N\$198 million) over the 12 months to end September 2018, solid investment performance across our unit trust funds contributed to our retail business's AuM remaining flat for the period at N\$2.2 billion (2017: N\$2.2 Billion).

### Dividend

The Board recommended a final dividend of 7.5 cents per ordinary share (2017: 7.5 cents per ordinary share).

The salient dates are as follows:

| Record date:             | 07 | December | 2018 |
| Payment date:            | 14 | December | 2018 |

### Prospects

We expect that tough domestic economic conditions will continue over the medium term.

Despite these challenges, we remain committed to delivering good investment performance over the long term and excellent client service. We are also encouraged by the re-opening of previously closed mandates to new institutional investors, which has already yielded positive inflows, and the expansion of our global offering.

We further believe that our robust investment approach to identifying the best investment opportunities across our client portfolios will generate long-term value for all stakeholders.

#### NOTES TO THE GROUP FINANCIAL STATEMENTS

### 1. Reporting entity

Namibia Asset Management Ltd (the "Company") is a Company incorporated in Namibia (Registration number: 97/397). The condensed group financial statements for the year ended 30 September 2018 comprise the Company, its subsidiary and other controlled entities, together referred to as the "Group".

### 2. Statement of compliance

The condensed group financial statements have been prepared in accordance with International Financial Reporting Standard IAS 34: Interim Financial Reporting and in the manner required by the Companies Act 28 of 2004.

The condensed group financial statements were approved by the Board of Directors on 14 November 2018.

#### 3. Significant accounting policies

The accounting policies applied by the Group in these condensed group financial statements are the same as those applied by the Group in its full group financial statements as at and for the year ended 30 September 2017.

### 4. Marketable securities

Marketable securities include statutory investments as well as the investment of excess cash into the Group's unit trust funds. These investments are classified as level one financial instruments as their carrying values are based on quoted prices in active markets for identical assets.

#### 5. Interest- bearing liabilities

The interest-bearing liabilities pertain to the acquisition of shares from Coronation Investment Managers SA (Pty) Ltd by the Orban Street Trust (OST), a controlled entity of NAM. The loan is repayable with any dividends that accrue on the 16 000 000 shares acquired as well as 30% of the dividends that accrue on the preexisting 26 000 800 shares. The repayment would first be applied to any accrued interest and thereafter to the capital balance. The loan attracts interest at the prime rate of Nedbank South Africa less 200 basis points. The 16 000 000 shares are held as security against the loan amount until the loan and attributable interest is fully settled. It is our policy to record interest paid in respect of interest-bearing liabilities as part of financing activities.

#### 6. Correction of prior year error

As previously reported in our March 2018 interim results we detected that during the 2017 financial year the Company incorrectly recorded a consolidation journal entry pertaining to the intercompany dividends paid by NAM to OST. In terms of the loan agreement between OST and Coronation the dividends accruing on certain OST shares are used to repay the Coronation loan (see note 5). The first repayment towards the loan was made from the 2016 NAM dividends received by the Trust, however these dividends were not consolidated out at a group level and therefore resulted in a misstatement of the below listed account balances as at 30 September 2017.

The error has been corrected by restating each of the impacted financial statement line items and the tables below summarise the impact of the restatement on the Group's consolidated financial statements:
